DERMATOLOGIST RECOMMENDED BRAND

	BENZOYL PEROXIDE	SALICYLIC ACID	SULFUR	PATCHES	ADAPALENE	AHA'S & PHA'S	NIACINAMIDE	RETINOL
USED FOR	Inflammatory Acne*	Blackheads & Whiteheads	Blackheads, Whiteheads & Inflamed Acne Bumps	Acne & Breakouts	Acne & Post-Acne Marks	Post-Acne Marks	Post-Acne Marks & Barrier Support	Post-Acne Marks
DETAILS	<p>Clears acne by penetrating deep down into pores, killing acne-causing bacteria.</p> <p>The use of <b>Micronized Benzoyl Peroxide</b> allows for less irritating, deeper penetration into skin</p> <p><i>*Inflamed acne bumps</i></p>	<p>An oil-soluble, beta-hydroxy acid. Provides strong chemical exfoliation, dissolving oil, dirt, and breaking down dead skin cells that clog pores.</p>	<p>Naturally-occurring anti-inflammatory element with anti-microbial properties.</p> <p>Dries out the top layer of skin, absorbing excess sebum, and sloughing away dead skin.</p>	<p>Non-medicated, <b>hydrocolloid</b> blemish patches are easy to use and will start to turn white as they absorb fluids to visibly show they're working.</p>	<p>Topical retinoid approved to treat acne and helps regulate skin cell turnover to keep pores from clogging,</p> <p>Prescription strength OTC, acts as an anti-inflammatory agent to reduce acne redness and swelling at the source.</p>	<p>Water-soluble acids that provide chemical exfoliation at skin's surface.</p> <p>Difference in molecular composition and size allow them to deliver range of benefits.</p>	<p>A form of vitamin B3 that is an antioxidant and skin conditioner. Helps strengthen the skin's moisture barrier.</p>	<p>Topical retinoid that is a refined form of Vitamin A. Exfoliates &amp; complements the natural cell turnover process.</p> <p>Our patented <b>Sustained Action technology</b> delivers retinol with slow release to reduce irritation potential</p>
